

Defibrillators

The Parish Council's defibrillator is now back in its cabinet on the Village Hall exterior wall after being returned from having its software updated **and** new defibrillator pads have also been put in.

The Village is very fortunate as there are two other defibrillators in the vicinity available 24/7, the locations are:-

- The Football Pavilion, Earsham Playing Field off The Street/Princess Way - this is an external defib and is available for use 24 hours a day.
- The Old Mill on Church Road - there is a defib in place on Old Grumpy's cafe external wall, also available for use 24 hours a day.

Always read the information on the defibrillator box and follow the instructions closely to gain access to the defib.
